Despite the media bias, despite the pile-on by the elites on the Left and on the Right, despite the out-right chicanery (one voting machine in Mississippi had votes logged in before ANYONE voted!), and despite his genius for shooting himself in the foot (when he wasn't cramming it into his mouth), real estate tycoon and reality TV star Donald John Trump has been elected the 45th President of The United States of America.

"Shock" doesn't begin to describe it.

Rent-a-Mobs in every major city have sprung up. A Rent-a-Mob marched on The White House chanting "Fuck Trump!" Students have walked out of classes. Parents and teachers claim children have been traumatized. "Hate crimes" have gone viral. Suicide hot-line call rates have spiked. New Balance sneakers are being burned because the firm backed Trump. #AssassinateTrump and #RapeMelania trend on Twitter. Clothing company Fluffy Crate is selling Post Trumpatic Stress Disorder tees: "The election is over but the pain is just beginning." The CEO of GrubHub e-mailed employees: "[Trump voters] have no place here." Blogger Perez Hilton posted a photo-shopped image on Twitter of conservative pundit Ann Coulter engaged in a threesome. Pulitzer Prize-winning cartoonist Ann Telnaes published a cartoon of Trump being gleefully sodomized by Russia's President Vladimir Putin.

So much for "When they go low, we go high."

Meanwhile, Cornell University held a "cry-in" for students devastated by Clinton's loss, and administrators at the University of Pennsylvania are offering "emotional support" puppies and kittens, coloring books, and chocolate to students.

And some people wonder why China is laughing at us!

The more these Special Snowflakes meltdown, the more they wallow in self-righteous self pity, the better the world understands why the Great Unwashed who make their privileged lives and safe spaces possible, whom they hold in such utter contempt, gave Madame Mao her comeuppance. That they support a woman who used her office to line her pockets, who had her e-mail server wiped before the FBI could get its grubby hands on it, who lied to Congress and the public repeatedly, says way-more about them than they realize.

So why was Madame Mao so-cruelly denied her "destiny"? Very simple:

1) Trashing those who disagree with you as haters / bigots / racists / sexists / xenophobes / homophobes / Islamaphobes / Basket of Deplorables (a phrase she dropped at a fundraiser to wild cheers) is not how you make friends and win elections.

2) Taking the base for granted. A whopping 46.6% of eligible voters stayed home. Those blacks, Latinos, women, LGBTQQ, and Millennials who did turn out voted for Trump more than they did for Romney in 2012. Worse, Hillary won fewer minorities than Obama in 2012. And voters have long memories: Hondurans in all-important Florida didn't forget that she backed a coup which ousted democratically-elected president Manuel Zelaya, and Cubans will never forgive Bubba Clinton for bending over for Papa Fidel.

3) Arrogantly-underestimating your opponent. She pooh-poohed the crowds Trump drew. She dismissed his appeal and his message. She treated him as though he were stuck to the bottom of her shoe -- proof she learned squat from her run against Obama in 2008.

4) She and the Democrats didn't offer any solutions to our problems, and, no, a "third Obama term" (Pajama Boy warned the crowds at Hillary's rallies repeatedly that his legacy was on the line) is NOT a solution!

Which leads me to what REALLY did Madame Mao in...

5) Obama's "legacy". Apologizing for America's existence. Having the ATF run guns to Mexican cartels, one of which was used to kill a Border Patrol Agent. Suing Arizona for enforcing federal immigration law. Bullying Chrysler's creditors to accept 30 cents on the dollar, then selling Chrysler to Fiat. Weaponizing the IRS and the DOJ against his opponents. Violating the WARN Act, the Clean Air Act, the Clean Water Act, and the Nuclear Waste Policy Act. Refusing to defend the constitutionality of acts and laws he didn't agree with. Violating federal law by prescribing a nationwide public school curriculum. Suing Florida for purging its voter rolls of non-citizens. "Passing" the DREAM Act by executive order. Refusing to enforce federal drug laws. Swapping Army deserter Bowe Bergdahl for 5 of Guantanamo's "finest" without Congressional approval. Having the FCC claim sole authority to regulate the internet. Racking up more debt than all of his predecessors combined! And DON'T get me started on Obamacare AND Benghazi!

Hillary and Obama spewed the usual post-election conciliatory bullshit in their patented condescending way, each speaking of the need for unity and offering Trump their best wishes. Why the sudden civility and graciousness? Could it be because Madame Mao and Pajama Boy know damn well that at 12:01 PM on January 20, 2017, The Orange Boogeyman will have the power to get medieval on both their scummy asses?! Many forget after Obama did the "we need to come together" spiel upon winning the presidency in 2008, he gave the one-finger salute to the Great Unwashed he denounced at a fundraiser as "bitter" folks who "cling to guns or religion." Having The White House lit up in rainbow colors to celebrate the Supreme Court's unconstitutional "marriage equality" opinion was nothing less than a declaration of war on faith -- an act as unprecedented by a head of state as it was obscene.

Make NO mistake, the elites are PISSED! They DO NOT want unity, and they DO NOT want to help Trump "Make America Great Again" -- a phrase coined by none other than Bill Clinton! His victory has exposed raw their loathing of not just the gun-toting, Bible-thumping, knuckle-dragging bitter clingers, but of democracy itself. The defeat is such a kick in the crotch, they fantasize that Trump will be impeached should he be found guilty of fraud in a civil suit concerning a real estate course he lent his name to, and the Electoral College will gift the presidency to Madame Mao as she received more popular votes (and she's a GIRL, dammit)! Will someone PLEASE explain to these dopes why Trump will NOT be impeached, and the difference between votes CAST and votes COUNTED?

If it is any comfort, Trump told *"60 Minutes"* that same-sex "marriage" is "settled law" AND the Electoral College needs to go -- proving he knows less about the Constitution than "constitutional scholar" Obama. But no matter: Madame Mao, Pajama Boy, and the Usual Suspects will make it their mission to do everything in their power to make Orange Boogeyman's life and presidency Hell on Earth! Bank on it!
